A Trusted Partnership

The Haskel ONSITE service program, a flexible approach to all your maintenance requirements that offers a comprehensive solution by delivering everything you require directly to your location. You deserve reliable equipment for life - A long term partnership with Haskel offers you that assurance.

Supporting you throughout the product lifecycle

Design, manufacturing, testing, installation, and maintenance are essential phases in the lifecycle of many products and systems. Each phase plays a critical role in ensuring that the product or system functions as intended, meets quality standards, and remains operational throughout its lifespan.

Haskel develops high quality products and systems that meet customer specific expectations, comply with regulations, and provide long term value through reliable performance and maintenance.

A Flexible Approach to all Your Maintenance Requirements

PartsONSITE™

All parts required for the equipment service are included and provided by the service provider, and are scheduled to arrive onsite ahead of the service interval.

ServiceONSITE™

All spares and labor necessary for the equipment service are included and provided by the service provider and delivered ONSITE to meet the requirements of the service interval.

The **ONSITE** Service Program Advantage

Genuine Parts

Haskel parts are your best choice for maximum reliability and optimal performance. Using genuine parts eliminates exposure to unnecessary equipment wear and tear.

Digital Solutions

Utilizing state of the art remote monitoring technologies, our digital approach will ensure your equipment receives regular maintenance to maximize uptime and avoid unexpected downtime.

Network of Experts

Haskel-employed qualified service technicians and a network of approved service centres.

Lasts Longer, Runs Better

Replacing the right parts at the right time ensures longer life, reducing the likelihood of unwanted surprises.

Optimized for Efficiency

Our service packages help to maintain optimal product condition for peak performance.

Rapid Response

As a Haskel service program customer, you are our top priority when it comes to repair work.
